

The New Lewisboro Library

- **32% increase in size overall:** To comfortably accommodate increasing library usage.
- **33% more space in our Adult area:** Adding a separate program/conference room allows us to add more special interest programs and technology classes to our program schedule.

- **45% more space in the new, enclosed Children's area:** We can take children's programs out of the shared periodical / large print room so those users have unlimited access – and allows for a quieter main library!

- **39% more space in our dedicated Teen area:** Teen program attendance has grown 85% - these kids deserve their own space!

“A Better Library = A Better Lewisboro”
